

## The **Fisherman's Advocate**, September 10, 1943:

*We have much pleasure in extending a warm welcome to Able Seaman Jacob Crewe who arrived home by Sunday's train on first leave of absence. Jacob went overseas in January, 1940, as a member of the Forestry Unit and following seven months in Scotland, enlisted in the Royal Navy. After a period of training in England, he was selected for service with the Mediterranean Fleet where he has since been on active duty...a great specimen of a noble seaman is Jacob and to such as he our country and empire will ever be indebted...*
